

**Michelle Nameth Baskin, M.Ed., BCBA**, founded ABA Outreach Services to coordinate home ABA (Applied Behavior Analysis) programs and provide consultation in homes and schools of children with autism. ABA Outreach integrates ABA techniques into fun and engaging activities for children. Her experience includes eleven years utilizing Applied Behavior Analysis in center-based and home-based programs in California, Oregon, and in Ohio. She provides trainings for parents and professionals through the Milestones Autism Organization. She received her undergraduate degree from Kenyon College and her Master's degree and Teaching Certificate in Special Education from Cleveland State University. Michelle taught in a cross-categorical special education classroom in a public elementary school and was an adjunct professor at Cleveland State University.
